EDUCATION

TEKNIK INFORMATIKA

2020
STT DUTA BANGSA
Cikarang, Indonesia

COMPUTER SKILLS

- GO
- Laravel
- familiar microservice framework
- docker
- redis, mongo db
- SDLC (Software Development Life Cycle)
- Kafka
- Swagger, Postman
- Python
- Familiar with AGILE, SCRUM
- Familiar Apache and Nginx
- SQL Server, MYSQL, Postgre, Oracle
- Mastering the Database Query System
- monitoring tools and backup system
- RDBMS concept

PERSONAL PROFIL

I am a FullStack Engineer with extensive experience in software development. My expertise includes programming and designing scalable and reliable backend systems. I have knowledge in programming languages such as PHP, Go, Javascript, Python, Javaspring, and C#, as well as using frameworks such as Laravel, CodeIgniter, Cake PHP, Drupal, Wordpress, Gin, Vue, Spring, React, Flask and ASP.Net. I focus on security, performance, and best practices in software development. I also have proficiency in Microservice architecture as well as working in well-coordinated teams and collaborating with other team members in agile methodologies such as SCRUM. I love learning new technologies and ready to contribute to innovative projects.

EXPERIENCE

PT DIMENSI INTERNATIONAL TAX

SR. BACK END Engineering(last Fullstack) | April 2021 - Now

- developing a highly-concurrent and distributed system;
- performance optimization and problem diagnosis;
- designing/Developing for high-availability;
- designing/Developing and testing new features;
- supporting release and documentation of developed features;
- estimating the effort required to develop and implement;
- help define coding standards and development processes; and
- willing to learn & adapt different technologies.
- Built an API with secure authorization for the mobile application
- Optimized the codebase used for the production environment resulting in increased application performance
- Developed a unified suite of tools for deploying and managing application updates
- Created CI/CD pipelines to automate the build and deployment processes
- Conducted code reviews to improve code quality and optimize application development processes

PT BERLIAN SYSTEM INFORMASI (MITSUBISHI GROUP)

IT Business Analyst | Januari 2021 - April 2021

- Analyse the structure of a business, how it uses technology and what its goals are
