

Fathurrahman Qarnain

Frontend Developer

Jakarta, Indonesia

I am an enthusiastic college student who is passionate about becoming a skilled Front End Engineer with expertise in React JS. I possess a solid understanding of HTML, CSS, and JavaScript, as well as various frameworks such as Tailwind, React, and Vue. Throughout my academic journey, I have developed several projects that showcase my ability to produce clean, well-structured, and easily understandable code.

Work Experience

Front End Engineer • PT. Cakra Radha Mustika (KALBE Nutritionals).

March 2022 - June 2022

- Learning to use React-Formik for input validation in TypeScript.
- Utilizing Redux for API state management.
- Building a member website where members who make purchases can exchange their coins at the nearest "Raja Susu" store.
- Source code management using Google Cloud Platform.
- Learning to use Jira Software to track the progress of tasks.
- Building the TadaTools Validator website using Next.js and TailwindCSS.
- Collaborating with the Backend, UI/UX, and Product Manager teams.

Skills : React.js · Next.js · TypeScript · Redux · Google Cloud Platform (GCP) · Tailwind CSS · Git

Education

2021 - Present

Universitas Negeri Jakarta

Informatics and Computer Engineering

2018 - 2021

SMK N 21 Jakarta

Software Engineering

Projects

Top Up Game

I have previously created a modern game top-up project using the tech stack TypeScript, Next.js, and Axios. I am proud of this project because it allowed me to learn a new language, TypeScript, and also taught me how to integrate APIs with TypeScript.

LuxSpace

Build a simple furniture sales website using React.js and Tailwind CSS. My goal in making this project is to develop my skills.
