3	Revamping API Authentication Service Moladin – Revamping Authentication Service Moladin using Golang and Database PostgreSQL	Back-End Programmer (as a Freelancer)	July 2022 – August 2022
4	API Notification Service - Develop API and Queue Message Consumer using Golang and Database MySQL	Back-End Programmer (as a Freelancer)	April 2022 – July 2022
5	API Career Site Moladin – Develop API for Career Site Application using Golang and Database MySQL	Back-End Programmer (as a Freelancer)	February 2022 – April 2022
6	API Prospera Application of BTPN Syariah – Develop Transaction API of Prospera Application using Java Spring Boot and Database MySQL	Squad Leader, Back-End Programmer	February 2021 – June 2023

7	KlikPayroll API Phase 2 – Develop RESTful API for KlikPayroll Web Application Using Java Spring Boot and Database PostgreSQL	Back-End Programmer (as a Freelancer)	November 2020 – December 2021
8	BUMA SuperApp Phase 2 – Analyze Business Process for P2H, P5M and Site Performance feature on BUMA SuperApp Phase 2	System Analyst (as a Freelancer)	September 2020 – November 2020
9	BackOffice API for VisionDG App (Bank Mestika) – Develop RESTful API for BackOffice VisionDG App on Bank Mestika, using Kotlin Spring Boot and Database MongoDB	Back-End Leader Programmer	August 2020 – November 2020
10	API DMS (Document Management System) for BKN (Badan Kepegawaian Negara) – Develop RESTful API for DMS Web Application Using Java Spring Boot and Database PostgreSQL	Back-End Leader Programmer	July 2020 – November 2020
11	Lynknow API – Develop RESTful API for Lynknow Application Using Java Spring Boot and Database PostgreSQL	Back-End Programmer, Dev-Ops	July 2020 – September 2020
12	KlikPayroll API Phase 1 – Develop RESTful API for KlikPayroll Web Application Using Java Spring Boot and Database PostgreSQL	Back-End Programmer (as a Freelancer)	April 2020 – August 2020
13	Taxpedia API – Develop API for Taxpedia Mobile Apps Using Java Spring Boot and Database MySQL	Back-End Programmer (as a Freelancer)	February 2020 – July 2020
14	Jalin Donasi API – Develop API for Jalin Donasi Mobile Apps Using Kotlin Spring Boot and Database PostgreSQL	Back-End Leader Programmer	March 2020 – June 2020
15	TSEL IoT Web Portal Enhancement – Enhancement TSEL IoT 2020	Back-End Leader Programmer	January 2020 – February 2020
16	TVRI – E-Learning – Using Kotlin with Spring Web MVC Framework and Database PostgreSQL	Project Leader	August 2019 – January 2020
17	TVRI – Asset Management – Using Kotlin with Spring Web MVC Framework and Database PostgreSQL	Project Leader	August 2019 – January 2020
18	BPS – ICS (Integrated Collection System) – Field Force Management (FFM) Module – Using Kotlin with Spring Web MVC Framework and Database SQL Server 2019	PIC of FFM Module	July 2019 – January 2020
19	TSEL IoT Web Portal – Using Java Spring Boot with JPA Framework and Database PostgreSQL	Back-End Leader Programmer	January 2019 – May 2019
20	Consolidated Statement on WebStatement OCBC NISP – Develop Additional Module on WebStatement OCBC NISP. Generate Consolidated Statement for Customer.	Programmer	January 2019 – March 2019

21	TVRI – Ticketing Management – Using Java EE with Spring Web MVC Framework, Hibernate Framework and Database PostgreSQL	Project Leader	December 2018 – May 2019
22	TVRI – File Sharing System – Using Java EE with Spring Web MVC Framework, Hibernate Framework and Database PostgreSQL	Project Leader, Programmer	December 2018 – February 2019
23	API Paytren – Online Ticketing for Train, Flight & Hotel - Using Java Spring Boot with JPA Framework and Database PostgreSQL	Back-End Leader Programmer	October 2018 – June 2019
24	Post Border KEMENKES RI – Using Java EE with Spring Web MVC Framework, Hibernate Framework and Database MySQL	Back-End Programmer	August 2018 – April 2019
25	Passbook Elimination Webstatement OCBC NISP – Additional Module on WebStatement OCBC NISP	Back-End Programmer	July 2018 – August 2018
26	T-Bike (Telkomsel Bike) – Maintenance and Phase 2 Development Using JAVA EE Spring Web MVC Framework, Hibernate Framework and Database MySQL	Project Manager, Back-End Programmer	March 2018 – August 2018
27	Web Dashboard T-Bike (Telkomsel Bike) – Maintenance and Phase 2 Development Using Angular JS	Backup Front-End Programmer	March 2018 – August 2018
28	Web Membership Organization – Using JAVA EE with Spring Web MVC Framework, Hibernate Framework and Database MySQL	Programmer	February 2018
29	Tax Document Module on WebStatement OCBC NISP – Additional Module on WebStatement OCBC NISP	Back-End Programmer	February 2018 – March 2018
30	API – Adsvokat – Using Python with Django Rest Framework and Database MySQL	Back-End Programmer	September 2017 – November 2017
31	API – AppLayer Virtual Debit Card OCBC NISP – Using JAVA EE with Javax WebServices (javax.ws) and Database Oracle	Project Leader, Back-End Programmer	June 2017 – July 2018
32	API – OmniChannel Virtual Debit Card OCBC NISP – Using JAVA EE with Javax WebServices (javax.ws) and Database Oracle	Project Leader, Back-End Programmer	June 2017 – Juli 2018
33	Web MOTIVASI (Modul Test Inovatif untuk Siswa Indonesia – Innovative Test Module for Indonesian Students) – Using JAVA EE with Spring Boot Framework, Hibernate Framework and Database MySQL	Back-End Programmer, Front-End Programmer, Database Programmer	March 2017 – August 2017
34	WebStatement OCBC NISP – Using Java EE with Spring Web MVC Framework, Database Oracle and Custom Framework (Annotation)	Back-End Programmer, Database Programmer	August 2016 – February 2017
35	Web ASDP (Angkutan Sungai, Danau dan Penyebrangan) – Using JAVA EE with Spring	Project Leader, Back-End Programmer, Database Programmer	August 2015 – June 2016

	Framework, Hibernate ORM Framework and Database Microsoft SQL Server 2014		
36	Desktop Application Receipt Management Apotek Latte – Using JAVA Swing, Hibernate Framework and Database MySQL	Programmer	November 2015 – January 2016
37	Web Vendor Pricing Tools Ericsson and Telkomsel (Bill of Quantity Management) – Using JAVA EE with Spring Framework, Hibernate ORM Framework and Database PostgreSQL	Project Leader, Back-End Programmer	August 2014 – July 2015
38	Activity, Reporting, and Monitoring System (ARMS) for AIPD (Australia Indonesia Partnership for Decentralization) – Using PHP Code Igniter and Database MySQL	System Analyst Assistant	July 2014 – May 2015
39	Desktop Application Aerowisata (Prototype) – Using JAVA Swing Framework, Hibernate ORM Framework and Database Microsoft SQL Server 2008	Programmer	May 2014 – June 2014
40	Web Geotagging Ericsson (Back-End Application of Mobile App Geotagging) – Using JAVA EE with Spring Framework, Hibernate ORM Framework and Database PostgreSQL	Programmer	December 2013 – June 2014

TECHNICAL KNOWLEDGE & SKILLS

Specification	Description
Operating Systems	<ul style="list-style-type: none"> - Microsoft Windows 7/8/10/11 - Linux Ubuntu, CentOS - MacOS
Programming Languages	<ul style="list-style-type: none"> - JAVA (J2SE and J2EE) - Kotlin - PL/SQL - JQuery
Databases	<ul style="list-style-type: none"> - PostgreSQL - MySQL - SQL Server - Oracle - MongoDB
Frameworks	<ul style="list-style-type: none"> - Spring Framework (Spring Boot and Spring Web MVC) - JPA / Hibernate ORM Framework - Quarkus Framework (RedHat) - Angular JS / Angular TS
Tools	<ul style="list-style-type: none"> - Eclipse, NetBeans IDE, IntelliJ IDEA - Microsoft Visual Studio - pgAdmin, Microsoft SQL Server Management Studio

EXPERIENCES

Period	Description
July - September 2008	Apprenticeship Program Organized by SMK Telkom Sandhy Putra Banjarbaru, South Borneo At Kandatel PT. TELKOM Tbk. Malang, East Java Sub Unit Customer Data Management, Customer Care Database Job Description: <ul style="list-style-type: none">- Verify customer database- Profiling CCDB (Customer Care Database)- Organize the archives of Speedy, PSTN, Flexy Customer- Input data of the Customer to the Database
July - August 2011	Job Training Organized by Telkom Polytechnic Bandung At HR Area V PT. TELKOM Tbk. Surabaya, East Java ISDC Regional V Surabaya Job Description: <ul style="list-style-type: none">- Database Migration, from MySQL to Oracle 8
