Machine Learning Cohort at Bangkit Academy 2023 | Bank Indonesia Scholarship Awardee

Makassar, South Sulawesi

Have worked in several web development projects, both front-end and back-end. Autodidact fast learner, interested in web development and machine learning.

WORKING EXPERIENCE

Front-End Developer Freelance   Mar 2023 – Present

Hanami Tech – Makassar, Indonesia

- Develop the front-end based on the designs given.
- Integrate with the Laravel back-end APIs.

Software Developer Intern   Feb 2023 – June 2023

Informatics Department, Hasanuddin University – Gowa, Indonesia

Projects: Web-based application for collecting lecturers' and students' file archives with OCR feature (to automate the form-filling of the files) and automatic CV generation.

- Develop the front-end of the websites (responsive website) using Next JS with Typescript.
- Integrate with the other back-end APIs.
- Code the OCR system using Tesseract and Regex for the algorithm; develop the API using Python Flask.

SKILLS

JavaScript, TypeScript, React, Next, Node, Express JS, Socket.io, Python, Flask, MongoDB, PostgreSQL, MySQL.

EDUCATION

Hasanuddin University, Makassar   Expected Graduation Apr 2024

Informatics Engineering, Faculty of Engineering

Cumulative GPA : 3.94 / 4.00

Catholic Rajawali Senior High School, Makassar   2017 – 2020

Average final score : 90.23 / 100

PROJECTS
