ABOUT ME

Driven and determined software engineer, promoting 6 years of experience in building client applications. Versatile software engineer works well both as part of team and independently. Offers strong interpersonal and communication skills. Highly educated with capability to deliver on key project milestones. Seeking to secure an engineering role with internationally astute firm involved in any industry.

WORK EXPERIENCE

SOFTWARE ENGINEER ANDROID | MAR 2022 - PRESENT

MOLADIN, JAKARTA

As a Mid Software Engineer - Android, I work close with other Stakeholder (UI/UX, BE, and Product teams) to convert any business requirement into a feature that run in any android devices. Moreover, I have responsibility to review and estimate tasks that given by the Product teams before proceed them. I also have to provide a high quality and documented code that has been tested with unit tests to ensures that the product delivered to the users has a minimum level of crashes and bugs. My role including to guide a Junior Software Engineer to deliver more tasks well and swift.

Helping Moladin to increase the number of sales by working on giving product recommendation, rating and comment to agent, and any other features.
